New Child Care Package: What every parent needs to know.

From 2 July 2018 the new Child Care Subsidy (CCS) is replacing the two current child care payments of Child Care Rebate (CCR) and Child Care Benefit (CCB).

The Australian Government is investing an additional \$2.5 billion over four years to support the 1.2 million families who use approved child care. The changes are to provide more support for more families and be targeted to those who need it the most.

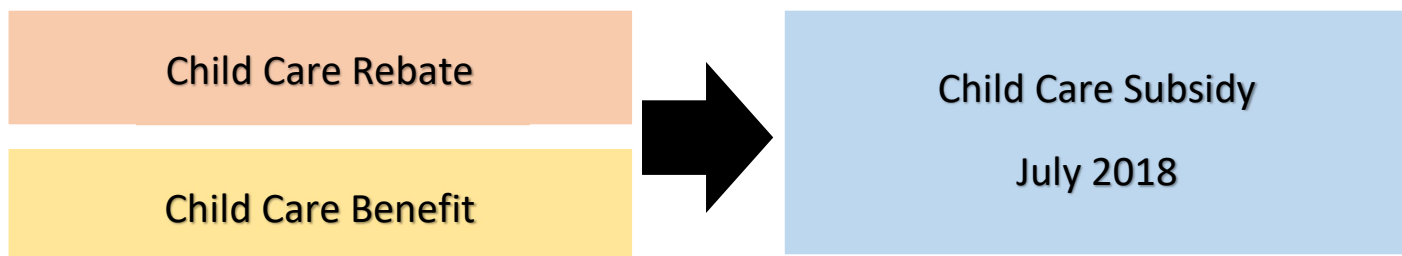

The centrepiece of the package is the Child Care Subsidy (CCS). When the CCS commences in July 2018 it will:

- Replace the Child Care Benefit (CCB) and Child Care Rebate (CCR) with a single, means tested subsidy
- Be paid directly to service providers to be passed onto families
- Be simpler than the current multi-payment system
- Be better targeted and provide more assistance to low and middle income families

Claiming

If you currently receive child care fee assistance via the CCR and/or CCB you will not automatically be transferred to this new CCS system. You will need to complete a Child Care Subsidy assessment online so Centrelink can check your eligibility and entitlement to CCS.

In Mid-April 2018 all families currently in receipt of the CCR and/or CCB will receive a Centrelink letter about transitioning to the Child Care Subsidy. You will then need to sign into your Centrelink Online Account through MyGov to complete the assessment (via the Complete your Child Care Subsidy Assessment task).

If you currently do not receive child care fee assistance a new claim for CSS can be done from mid-April 2018 using your Centrelink online account via MyGov. If you are eligible, they will start subsidising your child care fees from 2 July 2018.
